TICKETING SOLUTION

AN INNOVATIVE, PRODUCTIVE AND PRACTICAL SYSTEM WITH USER-FRIENDLY INTERFACE.

WHAT IS EASI TICKETING SOLUTION?

A comprehensive system capable of handling your ticketing and F&B needs with an all-in-one, user-friendly interface.

WHO CAN BENEFIT?

We have a strong customer base that sells over 30 million tickets a year.

WHY CHOOSE EASI TICKETING SOLUTION?

- Provides multi-delivery channels such as over-the-counter, web, smartphone, telephone reservation, kiosks and mobile devices.

- All-in-one, user-friendly interface that is simple to use.

- Robust, reliable, scalable & secured systems equipped with expandable and extensive functions to handle your organization needs.

- Presence in countries such as Malaysia, Singapore, Hong Kong, Vietnam, Brunei and Indonesia.

WHAT ARE THE KEY FUNCTIONS?

- Supports multiple delivery channels including WEB and mobile purchases.

- Provides real-time seat selection.

- Provides different payment modes for WEB and mobile purchases that includes credit card, direct debit, PayPal and E-Voucher redemption.

- Supports SelfPrint ticket (with QR code) and ticketless entry using AutoGate for tickets purchased via the WEB and smartphones (iOS, Android and Windows Phone).

- Extensive functions that include unlimited halls and capacity setup, multi-ticket type, mixed payment modes including vouchers and unlimited price policy including surcharges. Additionally, it allows ticket reservations and can be fully integrated with digital signage.

- Able to produce over 60 auditing and monitoring reports. Reports can also be exported to PDF/EXCEL formats.

WHAT'S NEEDED TO RUN EASI TICKETING SOLUTION ?

The core modules run on Microsoft Operating System and MSSQL Server for database.

The system works with standard ticket printers such as BOCA, Zebra and Epson thermal receipt printers.

WHAT ABOUT PRICING ?

We provide simple and competitive pricing for business of different sizes and needs. Price model includes an outright purchase model to subscription/ transaction fee model.
